

MATRIX42 SOFTWARE ASSET MANAGEMENT

LIS Premium

License Intelligence as an all-round carefree package

You have to struggle daily with masses of technical raw data, a confusing software portfolio and difficult to understand license conditions? This costs you a lot of time that you don't actually have? Are you considering external support? But external consultants are often expensive...and unfortunately often booked out months in advance?

With the Matrix42 LIS Premium Service, you receive efficient and short-term support for mapping your scenarios in the SAM tool.

License management made easy!

With LIS Premium, time-consuming searches for required data such as fingerprints, Stock Keeping Units (SKUs), the labeling of executable files or information on the software lifecycle are a thing of the past. And that for any manufacturer.

You need, for example, the license conditions for a certain product or are unsure how to map your individual license model in your SAM tool? No problem! As a LIS Premium customer you get exclusive access to license experts and are supported in licensing and tool questions.

Stay up to date with the monthly newsletter with your individually defined key figures and information on the current LIS data release. Would you like to research information on licensing models or licensing? With its constantly evolving online license library, LIS Premium offers you a reliable and easily accessible resource for all questions concerning licensing.

Your advantages with LIS Premium

Expert knowledge without long waiting times

No matter if you have a question about licensing or if you need support with the implementation of license models within your SAM tool: As a LIS Premium customer, an expert is always at your fingertips.

Recognition data for any manufacturer

Benefit from recognition data for any manufacturer. If the manufacturer is not yet in the system, we will update it for you. With the extended master database (e.g. software categories, life cycle, etc.) you can take your license management to the next level.

Tailored to your needs

Together with your contact person, you coordinate your priorities and key figures once a quarter. A monthly newsletter keeps you up to date on your individual key figures and the current LIS data release.
