

ERM in Poland

ERM Polska Sp. z o.o.

Helping our clients with a strong blend of expertise and specialized skills that facilitate sustainable business results, drive growth, improve stakeholder engagement, and strengthen competitive positioning.

Consistent, quality service - regardless of location

ERM is a leading global provider of environmental, health, safety, risk, social consulting services and sustainability related services. We work with the world's leading organizations, delivering innovative solutions and helping them to understand and manage their sustainability challenges. To do this, we have more than 5,500 people in over 40 countries and territories working out of more than 160 offices.

For over 45 years we have been working with clients around the world and in diverse industry sectors to help them to understand and manage their environmental, health, safety, risk and social impacts.

The key sectors we serve include Oil & Gas, Mining & Metals, Power, Chemical, Manufacturing & Pharmaceutical, and Technology, Media & Telecommunications. All face critical sustainability challenges and our clients in these and many other areas rely on our ability to assist them operate more sustainably which has a positive impact on our planet.

ERM in Poland

We support clients throughout Poland since 1989 and as interest in environmental issues continued to grow within the region, we opened our office in Warsaw in 1993, employing now over 20 people. Besides having Polish as a mother tongue, our consultants are polyglots allowing us to mobilize global teams of technical and management specialists at a moment's notice to suit client's needs.

We work close to the other ERM offices in the Central and Eastern European Region, including Romania and Germany, Switzerland, Russia and Kazakhstan as well as across ERM's global network which allows us to provide highly sophisticated, high quality, responsive and client focused service.

Our approach is to team with clients, to support and accelerate their individual journeys to meeting their EHS & sustainability objectives through the challenges of understanding risks, addressing compliance and performance, maximizing efficiency, embedding technological solutions and reducing costs.

Health and Safety-a Core Value

Caring for our people is one of ERM's Core Values. ERM believes that a sustainable path to world-class safety performance is one where safe behaviours are engrained in the actions and decisions of our people, with the aim of achieving zero harm. Living and operating in our safety culture, ERM strives to ensure that everyone—colleagues, clients, subcontractors, or anyone who comes within our work environment—goes home safely.

Commitment and Sustainability

This decade has begun with an unprecedented shock, calling our attention to the fragility and interdependence of the planet and human life.

It's time for a reset. It's time to act. See how we are shaping a sustainable future: <https://www.erm.com/sustainability-report/>

Services:

ERM services support our clients' environmental, health, safety (EHS) and sustainability needs across the entire lifecycle of the business.

Corporate Sustainability and Climate Change

Partnering with leading organizations to address complex sustainability challenges, from climate change risk to human rights, by clarifying strategic direction, designing corporate programs, and enhancing transparency and the robustness of public disclosures.

Mergers & Acquisitions

Helping clients mitigate environmental, social and governance (ESG) and sustainability risks to maximize and protect value throughout their investment lifecycle by delivering insight-driven, commercially-focused due diligence.

Capital Project Delivery

Helping clients keep capital projects on schedule and on budget by mitigating environmental, safety, and social risks from conception to final investment decision, through operational handover and ongoing management.

Operational Performance

Helping global organizations mitigate risk, grow revenues, and manage costs by optimizing and transforming EHS functions to connect deeply to operations, integrating data-driven approaches, and delivering managed services.

EHS Management and Compliance

Working with every level in the organization to define, design, and deploy programs that achieve and sustain compliance, effectively manage EHS issues, and also control operational costs and reduce risks.

Liability Portfolio Management and Remediation

Managing risks through strategic approaches, digital applications and best-fit technical methods that identify, assess and manage environmental liabilities. Actively engage with clients to understand and respond to their specific and evolving needs and obligations through an end-to-end integration of site investigation, remediation, decommissioning and retirement.

Safety Services

Encouraging clients to move beyond traditional compliance and corrective programs so that they can maximize the return on their investments in safety - to safeguard lives, protect assets and strengthen reputation.

Digital Services

Helping business leaders achieve a step-change in EHS and sustainability performance through tech-enabled innovation. We deliver these business outcomes at pace and scale through the integration of our global network, exceptional subject matter expertise and deep digital capabilities.

Product Stewardship

Helping clients bring products to market safely, sustainably, and in compliance with global regulations, in a way that also meets their business goals and satisfies key stakeholders.
